

Healthy Eating

Food helps our bodies grow, move and stay healthy.

Fruit

Vegetables

Carbohydrates

Protein foods

Dairy & alternatives

Water

We need a variety of foods - not just one kind.

A Balanced Plate

Different food groups have different jobs.

Fruit & vegetables

Eat a variety every day.

Carbohydrates

Choose wholegrain or higher-fibre choices when you can.

Protein foods

Beans, pulses, fish, eggs, meat and other proteins.

Dairy & alternatives

Choose suitable lower-fat and lower-sugar options.

Oils & spreads

Use small amounts.

Water

Drink regularly through the day.

Check packaged-food labels and have foods high in fat, salt and sugar less often and in small amounts.

Carbohydrates

These foods are an important part of a balanced diet.

Potatoes

Bread

Rice

Pasta

Cereal

Wholegrains

Choose wholegrain or higher-fibre versions when possible.

Fruit and Vegetables

Eat a variety of fruit and vegetables every day.

Apple

Banana

Strawberries

Broccoli

Carrot

Tomato

Orange

Sweetcorn

Different colours can help us remember to choose a variety.

Beans, Pulses, Fish, Meat and Other Proteins

Protein foods include many different choices.

Beans & pulses

Fish

Eggs

Meat

Nuts

Plant proteins

Eat more beans and pulses. Choose a variety of protein foods.

Dairy and Alternatives

Milk, yoghurt, cheese and suitable alternatives belong in this group.

Milk

Cheese

Yoghurt

Soya alternative

Choose lower-fat and lower-sugar options when appropriate.

Oils and Spreads

Use oils and spreads in small amounts.

Unsaturated oils

Spreads

A little is enough.

Water

Drinks help keep our bodies hydrated.

Drink regularly through the day.

Water is a simple everyday choice.

Healthy Eating - Quick Recap

Can you name an example from each group?
