

Homework

Equivalent Fractions, Decimals and Percentages

National Curriculum Objectives:

Mathematics Year 5: (5F12) Solve problems which require knowing percentage and decimal equivalents of $\frac{1}{2}$, $\frac{1}{4}$, $\frac{1}{5}$, $\frac{2}{5}$, $\frac{4}{5}$ and those fractions with a denominator of a multiple of 10 or 25

Differentiation:

Questions 1, 4 and 7 (Varied Fluency)

Developing Complete the statements to show understanding of equivalent fractions, decimals and percentages. Includes half, tenths and hundredths only.

Expected Complete the statements to show understanding of equivalent fractions, decimals and percentages. Includes half, one-quarter, one-fifth, two-fifths and four-fifths and some use of denominators of a multiple of 10 or 25.

Greater Depth Complete the statements to show understanding of equivalent fractions, decimals and percentages. Includes half, quarters, fifths and denominators of a multiple of 5, 10 and 25.

Questions 2, 5 and 8 (Varied Fluency)

Developing Compare fractions, decimals and percentages. Includes half, tenths and hundredths only.

Expected Compare fractions, decimals and percentages. Includes half, one-quarter, one-fifth, two-fifths and four-fifths and some use of denominators of a multiple of 10 or 25.

Greater Depth Compare fractions, decimals and percentages. Includes half, quarters, fifths and denominators of a multiple of 5, 10 and 25.

Questions 3, 6 and 9 (Reasoning and Problem Solving)

Developing Explain errors when placing representations on a number line. Includes half, tenths and hundredths only.

Expected Explain errors when placing representations on a number line. Includes half, one-quarter, one-fifth, two-fifths and four-fifths and some use of denominators of a multiple of 10 or 25.

Greater Depth Explain errors when placing representations on a number line. Includes half, quarters, fifths and denominators of a multiple of 5, 10 and 25.

Equivalent Fractions, Decimals and Percentages

1. Colour each shape as instructed and complete the sentences below.

A. Colour 0.3 of this shape.

I have coloured % of the shape.

I have coloured of the shape.

B. Colour 0.7 of this shape.

I have coloured % of the shape.

I have coloured of the shape.

VF
HW/Ext

2. Use the symbols below to make each statement correct. The symbols can be used more than once.

A.  $\frac{1}{2}$ 0.2

B.  $\frac{6}{10}$ 80%

3. Abi has placed the following representations on the number line below.

Is she correct? Explain why.

RPS
HW/Ext

Equivalent Fractions, Decimals and Percentages

4. Colour each shape as instructed and complete the sentences below.

A. Colour 0.25 of this shape.

I have coloured % of the shape.

I have coloured of of the shape.

B. Colour 0.2 of this shape.

I have coloured % of the shape.

I have coloured of of the shape.

6. Oskar has placed the following representations on the number line below.

Is he correct? Explain why.

RPS
HW/Ext

Equivalent Fractions, Decimals and Percentages

7. Colour each shape as instructed and complete the sentences below.

A. Colour 0.4 of this shape.

I have coloured % of the shape.

I have coloured of of the shape.

B. Colour 0.8 of this shape.

I have coloured % of the shape.

I have coloured of of the shape.

Homework

Equivalent Fractions, Decimals and Percentages

Developing

1. A.  , 30% and $\frac{3}{10}$

B.  , 70% and $\frac{7}{10}$

2. A. <, >

B. =, <

3. Abi is not correct. 0.3 is pointing to 20%; it should be pointing to 30%.

Expected

4. A.  , 25%, $\frac{1}{4}$

B.  , 20%, $\frac{1}{5}$

5. A. >, <

B. >, =

6. Oskar is incorrect. $\frac{8}{20}$ is pointing to 30%; it should be pointing to 40%.

Greater Depth

7. A.  , 40%, $\frac{2}{5}$

B.  , 80%, $\frac{4}{5}$

8. A. >, =

B. <, >

9. Carly is incorrect. $\frac{12}{15}$ is pointing to 90%; it should be pointing to 80%.
